Fano 2026 A Year of Major Events in the City of Vitruvius

Sea, culture, history, music,
gastronomy: a full year of
events making Fano a national
and international destination.

18 January 2026 THE DISCOVERY OF THE BASILICA OF VITRUVIUS

More than two thousand years after its construction, the **Basilica of Vitruvius** has been identified in Piazza A. Costa, in Fano. Vitruvius, a Roman architect of the 1st century BC, is considered the father of Western architecture and culture and the author of the famous treatise *De Architectura*. This extraordinary discovery confirms Fano as a key place of classical civilization and architectural culture, and as the birthplace of Vitruvius.

“And here is Vitruvius, the unconscious hero of our time”
