# Fano 2026 A Year of Major Events in the City of Vitruvius

**Sea, culture, history, music,  
gastronomy: a year of events  
that puts Fano on the  
national stage**

**18 January 2026** THE DISCOVERY OF THE BASILICA OF VITRUVIUS

More than two thousand years after its construction, the **Basilica of Vitruvius** has been identified in Piazza A. Costa in Fano. Vitruvius was a Roman architect of the 1st century BC, father of Western culture and architecture and author of the famous *De Architectura*. A discovery of extraordinary significance, which recognises Fano as a key site of classical civilisation and architectural culture, the birthplace of Vitruvius.

***“And here is Vitruvius, the unwitting hero of our time”***
